

# Moving Beyond the Gap - Racial Disparities in South Minneapolis

October 2014

## Overview

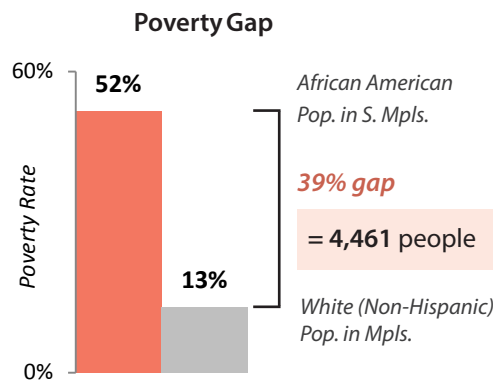

This report is part of a larger collaboration between the Local Initiatives Support Corporation (LISC) and the Center for Urban and Regional Affairs (CURA). It aims to inform community revitalization in the Twin Cities by analyzing neighborhood contributions to regional disparities between whites and other racial and ethnic groups. The report compares the South Minneapolis Building Sustainable Communities area to the city of Minneapolis along a series of economic and community health indicators. It illustrates the degree to which closing the gap between whites and minority groups in South Minneapolis would contribute to narrowing disparities within the city as a whole.

## Area Demographics

| Race |  |  |
|------|--|--|
| 55%  | White                                    |  |
