Since 1981, Local Initiatives Support Corporation (LISC) has coordinated more than $610 million in development funding. This work has ranged from infrastructure investments like the Paseo Gateway and reStart Housing Authority to efforts in specific neighborhoods like the ones in Wyandotte County. LISC is working with partners to help gain access to investment in Kansas City's neighborhoods through innovative financial arrangements and the use of institutional and financial capital.

Given the funding of many of LISC’s successful projects, a larger impact can be achieved. Greater Kansas City LISC is building a prosperous future in the places others have left behind.

Successful projects as well as the voids left from unfortunate missteps over time. To create a brighter future, we embrace a few poignant themes that resonate from great neighborhood revitalization strategies.

1. Lower risk and greater returns come from leveraging our collective intellectual and financial capital.
2. A healthy neighborhood is what we are building to achieve financial and economic gains for the community.
3. The urban center of Wyandotte County contains an array of neighborhood revitalization projects, authenticated by the current influx of new immigrants as well as the successful investment of Wyandotte County (CHWC) building a residential destination.
4. Nearly $660,000 of LISC investment leveraged $3.2 million in new investments in current projects, contributing to such initiatives as the Wyandotte County Quality of Life Plan.
5. The downtown core of KCK has an array of neighborhood revitalization projects, including the redevelopment of Hardesty Renaissance, the John F. Kennedy Community Center, the Kansas School for the Deaf, the Boys & Girls Club, and the Boys & Girls Club of Greater Kansas City.

LISC supports the neighborhoods of Greater Kansas City: Downtown KCK, Westview, and Independence. LISC believes that by leading, aligning, and collaborating, the community can accomplish its goals. LISC is located at 2130 Main Street, Kansas City, MO 64105.
