

Blue Line Corridor Technical Assistance Panel

Presentation of Recommendations

FRIDAY, MARCH 8, 2024

Presentation Outline

- TAP Process
- Meet the Panel
- The Assignment
- Stakeholder Input
- Community Identity
- Mobility and Access
- Land Use Recommendations
- Agency Coordination & Public Procedure
- Q&A

What is a TAP?

The Technical Assistance Panel (TAP) offers technical analysis to communities and organizations facing land-use challenges.

ULI members volunteer their time to provide unbiased, expert advice and specific recommendations for improvement. Local industry leaders draft a plan to revive, rethink, and restore communities to ultimately enact change and improve the lives of people in the DC region

Day One

- Meetings with sponsor representatives
- Interviews with stakeholders and community representatives

Day Two

- Work session to develop recommendations
- Presentation to sponsor and stakeholders

How does ULI provide this assistance?

A community group or organization approaches ULI with a request.

ULI convenes a group of experts to focus on specific questions in a concentrated, finite effort and communicates the results.

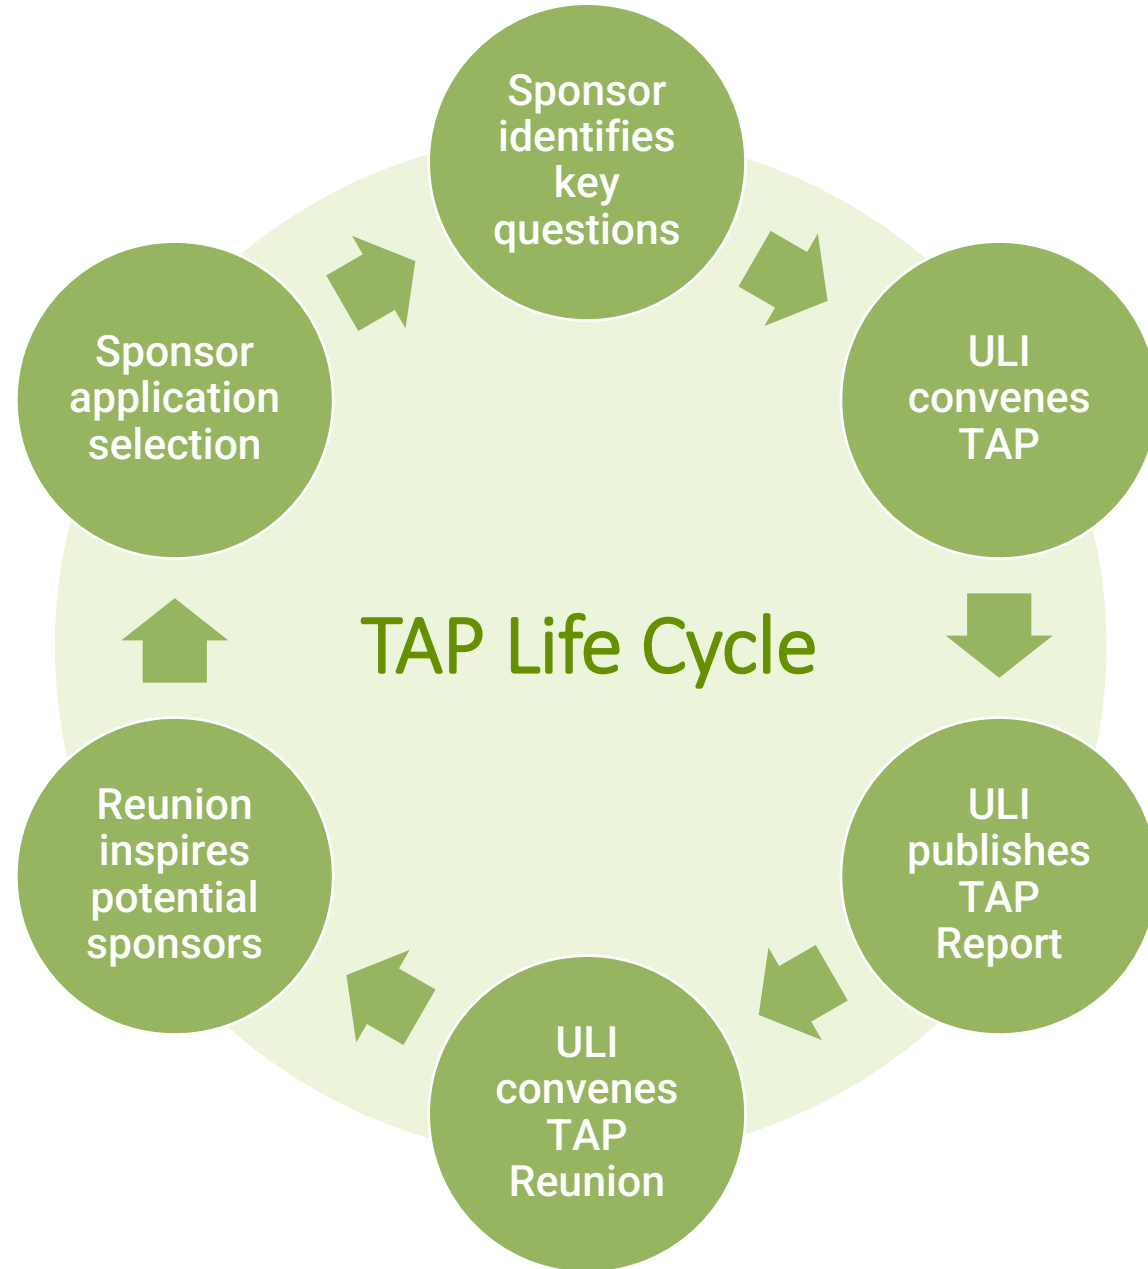

- group of experts = Technical Assistance Panel
- specific questions = defined by the sponsor
- concentrated, finite effort = two intense days
- communicates the results = presentation to the sponsor *and* published report

Sponsor pays a fee for service (\$25,000) to ULI Washington.

Metropolitan Washington
Council of Governments

The Assignment

The Goals of the TAP

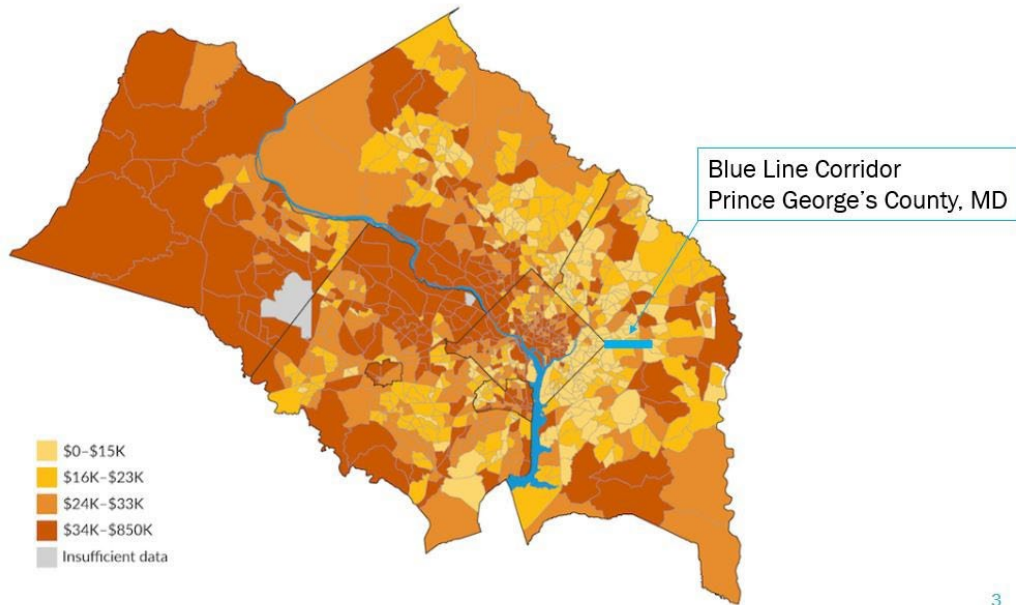

Image Credit: [The Urban Institute](#) and TAP Briefing Materials

- 1. Develop a vision of place-keeping and place-making for the western portion of the Blue Line Corridor.**
- 2. Determine market-feasible near-term projects that address the most relevant community priorities.**
- 3. Identify actionable next steps to support and increase community power to affect land use.**

The Assignment

The Big Questions to Answer

1: Revitalization that Respects & Reflects the Communities
How can this corridor be enhanced to honor history and culture, prevent displacement, and attract new folks?

2: Leveraging Geography & Demographics
How can we leverage our geography and demographics for inclusive, equitable growth?

3: Near-term Development Opportunities
Which vacant/underutilized sites have the most potential for development?

4: Community Empowerment
What steps can be taken to build municipalities' and communities' capacities to pursue their vision?

LeKeisha Vone, Horning
Mayor Linda Monroe, Capitol Heights
Mark Lawrence, Inccuvate
Myneca Ojo, Town Manager, Seat Pleasant
Nicole Hall, Prince George's County Economic Development Corporation

Nkosi Bradley, Local Developer – Partners for Equitable Community Growth
Pat Fletcher, Office of MD Delegate Tiffany Alston
Peter Goldsmith, Lerch, Early & Brewer, Chartered
Randall Scott, State Highway Administration
Rasheeda Jamison, UCAP
Renita Flood-Bennett, Fairmount Heights CDC
Robert Patten, M-NCPPC – Parks
Robyn Mabry, Local Developer
Ron Williams, Councilmember, Capitol Heights
Pastor Ronald Triplett, Pastor of Gethsemane United Methodist Church
Scott Rowe, M-NCPPC Planning Department
Shubha Punase, M-NCPPC – Parks
Stephanie Prange Proestel, Housing Initiative Partnership
Steve Brigham, Community Engagement and Planning Consultant
Winstina Hughes, State Highway Administration Planning & Strategic Manager for District 3
Wuhan Dansby, Development Consultant

Stakeholder Roundtable Session

What We Heard in Stakeholder Roundtables:

Misinformation and a Lack of Information

This is a Food Desert and a Bank Desert

How do we establish an idea of “place” and “identity” across siloed municipalities?

It's dangerous to be a pedestrian

Job Creation and Workforce Development

African-American History Must be Preserved

How do we continue to make sure this area doesn't get overlooked?

Greater diversity of housing options needed

Community Identity

Highlighting the Western Portion of the Blue Line Corridor's Rich Historical and Cultural Assets to Create Inclusive Destinations

What We Heard

There is a need to elevate arts and cultural hubs within Western Section of Blue Line Corridor

- There are currently no visible identifiers of cultural and historic assets
- Desire for improved streetscapes and safe crossings
- Create centralized information portal to craft a unified message
- Opportunities to envision what are the communities' desires reflective of their unique characteristics
- Need for more civic assets including community centers, a movie theatre, and recreational spaces
- Highlight neighborhood gateways
- Prioritize job creation and youth workforce development

Image Credit: Washington Glass School

Opportunities for Community Empowerment

- Rich history and distinct characters exist in communities along the corridor. *What is needed to support communities in articulating their unique value and identity? How can the built environment reflect this culture?*
- Central Avenue Connector Trail is being implemented. *What enhancements can be added to support local identity and sense of place?*
- Development is coming. *What requirements can be put in place to add public art, local history, and create walkable and safe streetscapes?*
- A caring and connected culture exists in the area. *How can programs and projects preserve and enhance those relationships?*
- Land is still available at a wide variety of scales. *How can the community leverage these spaces for cultural / civic / storytelling use?*

Image Credit: M-NCPPC "Historic Fairmount Heights School Adaptive Reuse Study"

Case Study: Technical Assistance Tools

Helpful Placemaking Tools

Main Street Maryland is a comprehensive downtown revitalization program created in 1998 by the Maryland Department of Housing and Community Development. The designation helps strengthen the economic development potential in the town's historic downtown districts and neighborhoods.

Maryland Arts & Entertainment Districts help develop and promote community involvement, tourism, and revitalization through tax-related incentives.

Image Source: [Miles 2 Go](#)

Case Study: Long Branch

Locally responsive small business and main street development

Long Branch is a two-block long commercial district located along the Purple Line. It is characterized by strip malls and small businesses run by members of the community which reflect the local diversity. Efforts are being made to organize and build capacity in the area to prevent commercial displacement.

- **Implementors:** Montgomery Housing Partnership, M-NCPPC
- **Collaborators:** Long Branch Business League, CHEER, NeighborWorks America, DHCA,
- **Elements:** Programming and festivals, murals, street trees, façade improvements, renovation of historic theater (catalytic project), park redesign, public art, local visibility campaign "Discover Long Branch"

Case Study: Destination Crenshaw

- Destination Crenshaw is a **community-centric development** project transforming a 1.3-mile stretch of Crenshaw Boulevard to drive long-deserved economic investment and strategic urban planning to the community. The project's primary mission is to boost Crenshaw Boulevard through **economic development and job creation** while **celebrating local Black art and Culture**.
- **Implementors:** Destination Crenshaw
- **Collaborators:** Getty Foundation, Otis College, City of LA, LISC LA, Vermont Slauson Economic Development Corporation

Image Source: Destination Crenshaw

Short Term

Action Item: Storytelling through place

- **Compile histories and stories** to showcase, share locally and with developers working in the area.
- **Implement projects** to bring history & culture to light
 - Fairmount Heights net-zero townhomes Pocket Park (In process)
 - Plant lilacs to honor the Ridgeley community & install signage to make the stories more broadly accessible.
 - Advertise events like the Turnip Tour along the corridor.
 - Create and circulate a map of community gardens in the community.

Medium Term

Long Term

Fairmount Heights Zero Energy Homes for Sale, HIP

Action Item: Highlighting Existing Historical Assets

Historic Fairmont Heights School, MD

Historic Ridgeley Rosenwald School, Capitol Heights, MD

Image Source: Michael Harding Miles 2 Go

Historic St. Margaret's Catholic Church, Seat Pleasant, MD

Image Source: M-NCPPC

Action Item: Trail Enhancements

- Convene a group to **identify elements and additions to be installed along the Central Avenue Connector Trail**. A collective vision, easily shared and communicated, will make advocacy efforts more impactful.
- Identify priority projects and select partner organizations to support with project development, fundraising, and implementation.

Sculpture along the Anacostia

Action Item: Add Arts & Culture to Local Development

- Adopt and advocate for Coalition of Central Prince George’s County Community Organizations **Principles for Placemaking** to guide appropriate development.
- **Invest in key projects in high visibility areas** such as the addition of murals and public art at the Addison Road Metro Station.
- Include Public Art and cultural projects when considering new development and when enhancing existing businesses
- Resources: Prince George’s Arts and Humanities Council (PGAHC) and M-NCPPC Placemaking Division

Short Term

Action Item: Invest locally first

- Advocate for local sourcing of small businesses, vendors, partner organizations, and programming before bringing in new organizations.
- Prioritize activities and programs that can be accomplished with existing local resources.
- Expand local capacity by identifying trainings and other resources needed, then advocating for allocations from community benefit agreements or other funding streams.
- Prioritize small business advancement to create more quality jobs.

Mobility and Access Strategy

MOBILITY AND ACCESS STRATEGY

Prioritizing Levels of Comfort and Safety

What we heard...

Stakeholder Engagement

Participants

- Maryland State Highway (SHA)
- M-NCPPC Parks and Planning
- Local Developers/Owners
- Area Residents
- Community Organizations

Feedback

- Poorly lit and maintained access
- Inadequate bus shelters
- Inadequate pedestrian crossings
- Lack of active destinations
- Central Avenue seen as a facility for pass-thru traffic rather than local serving
- Major transportation improvements currently planned and under study

Image provided by ULI TAP Panel

Transportation Aspirations

- Connected non-auto networks serving historical/cultural and typical daily needs
- Improved Safety for all ages and abilities
 - Vision Zero of Prince George's County
 - Central Avenue Connector Trail
 - MD SHA – Pedestrian Safety Action Plan
 - Capitol Heights Green Streets Plan
- Recharacterization of Old and New Central Avenue
- Destination connectivity amongst municipalities

Capitol Heights looking south – image from Capitol Heights Green Streets Plan (2012)

Safety Concerns

- Top 10 High Injury Network
- Fatal crash for all modes of transportation
- Narrow sidewalks without buffers
- High vehicle speeds
- Safety currently being reviewed by MD SHA

Image taken from Prince Georges County Vision Zero Map

Central Avenue (MD 214)

Existing

- 6-Lane Median Divided Arterial – Approx 32,000 vehicles per day
- Top 10 in MD for Pedestrian, Bike and Vehicular Fatalities
- Seen as a facility for pass-thru traffic rather than local serving

Potential

- Road Diet with narrower 4-lane section (with turn lanes at intersections) and reduced speeds
- Wider pedestrian and bike facilities
- Shorter pedestrian crossings
- Tree-lined Boulevard creating a corridor for adjacent development suitable for commercial and residential

Image taken from Google Earth

Image created using Streetmix

Central Avenue - Active Plans and Studies

Central Avenue Connector Trail (CACT)

- Provides a bikeway and improved pedestrian space on south side of a portion of Central Avenue within the study area
- Plans progressing to 100%
- Full construction potentially in 10-yr timeframe

MD SHA – Pedestrian Safety Action Plan

- New SHA program evaluating and constructing corridor improvements
- Central Avenue from DC Line to Ritchie Road currently being studied
- Potential for Road Diet and compliment to the CACT

Image taken from Central Avenue Connector Plans

Old Central Avenue

Existing

- 2-Lane roadway with 11,000 ADT
- 4 recent fatal accidents
- Wide lanes with sidewalks on curb and no buffers
- Buildings set back from sidewalk – available frontage

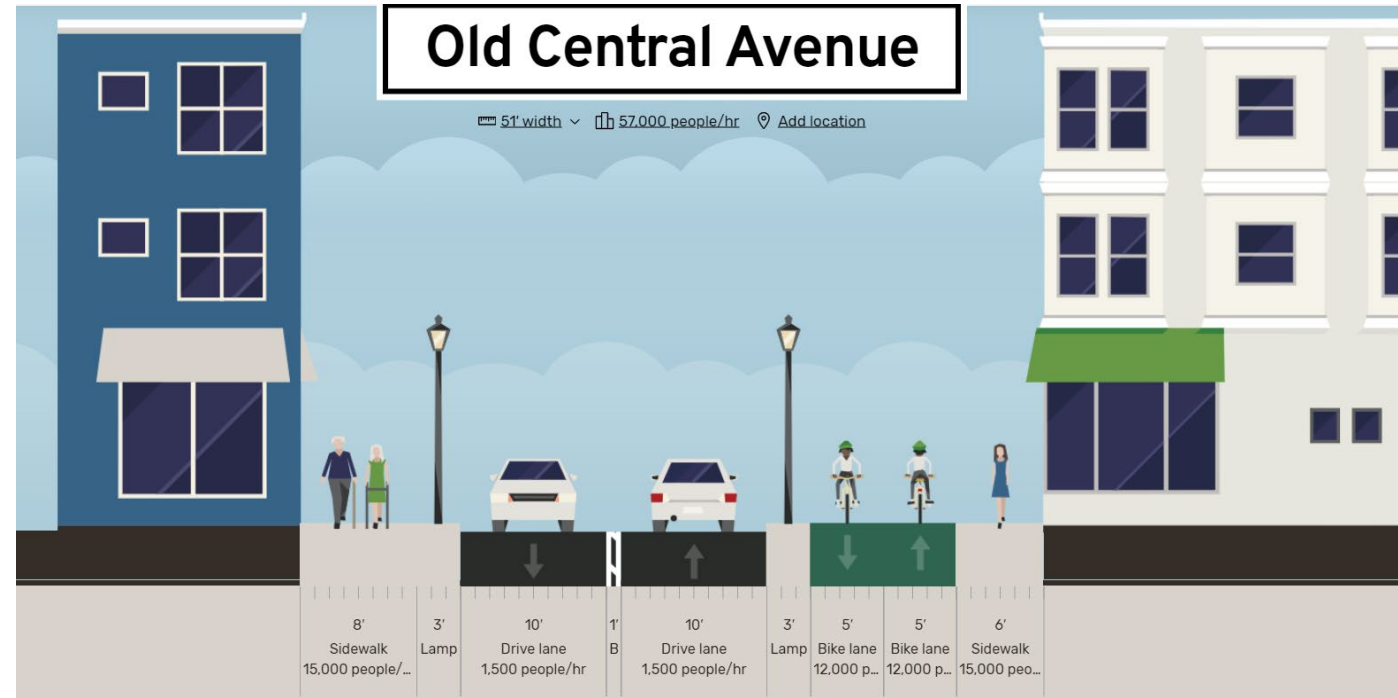

Potential

- Narrowed lanes and added buffer with wider sidewalk
- Improvements additive to CACT plans
- Continues north along Chambers Rd and/or Capitol Heights Blvd
- Comfortable walking and biking experience
- Provides complete infrastructure for future destination development and cultural activity centers

Image taken from Google Earth

Image created using Streetmix

Rethinking Addison Rd

Addison Rd

- Transit-oriented development at Addison Plaza
- Connecting capacity to development and growth activity centers
- Incentivizing commitments for implementation and investment

Response Framework Actions

- Local transit-oriented zoning
- Block-level approaches
- Modernizing signalization and ped-auto interactions

Transit Equity

- Redesigning bus stop locations
- Transforming highway-like roads to slower moving streets
- Update transportation measures and requirements of design
- Safe Arrivals
- Adopting access to opportunity metrics
- Improving crosswalks and pedestrian refuges

Connecting to Daily needs and Destinations

Growing the value of transportation

Goals

- Improve walkability of major routes within 10-minute walk of Metro
- Learning to living pathways
- Healthy living expansion of options and access
- Active Metro routes and to communities
- Creating connectivity that creates opportunity spaces

Image provided by ULI TAP Panel

Action Items for Improvement

- Survey geological assets and grade level of streets – Leverage what has been done for CACT
- Identify destinations and routes for external connectivity
- Developing combined municipalities' transit action plan for connectivity and opportunities
- Impact and opportunities analysis to prioritize route construction
- Consider short term SHA pilot program to address fatalities along High Injury Network

Land Use Recommendations

"Change will come and it is hard....but the time is right to ensure equitable development"

Equitable Land Use and Development

Community Input and Empowerment

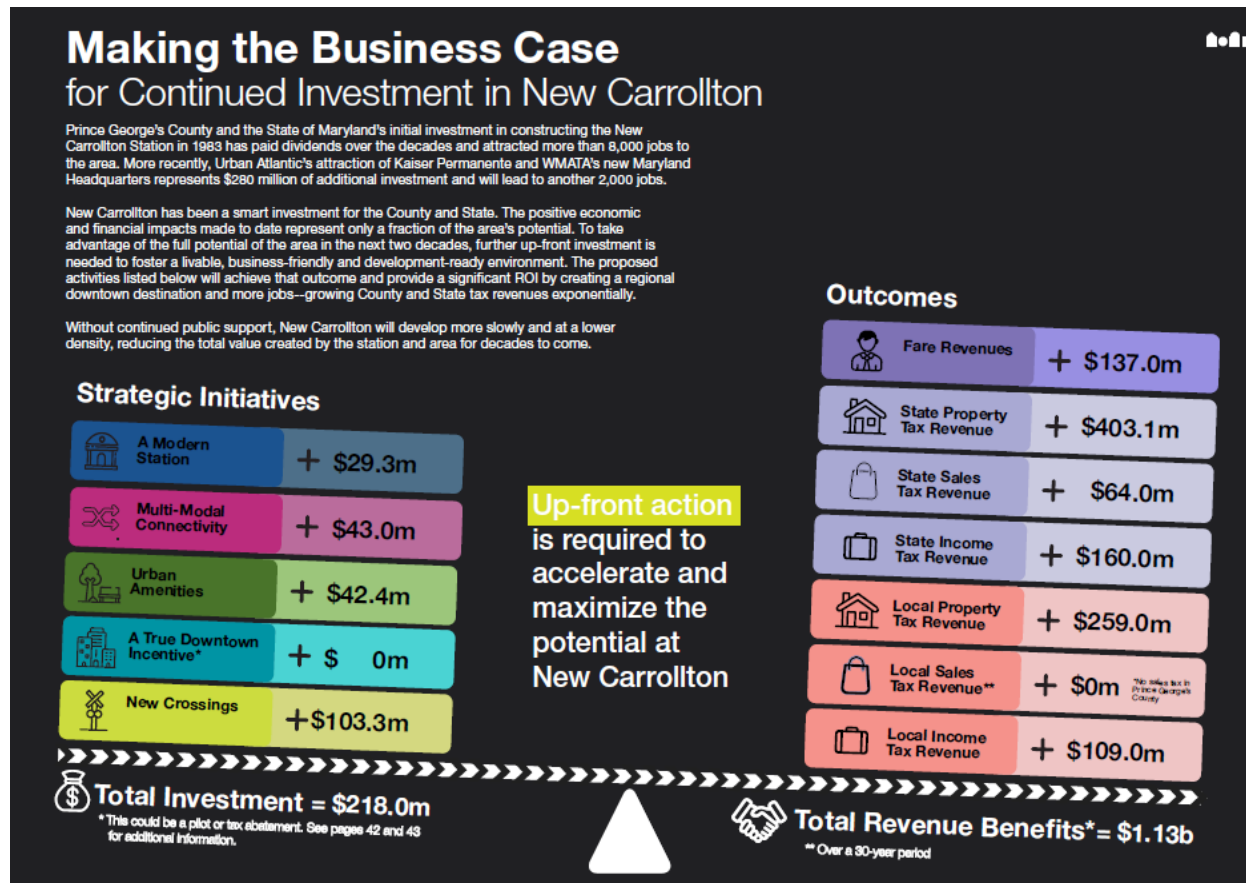

- Positive
- Intentional
- Inclusive

- Grocery Store
- Restaurants
- Places to Gather
- Places for Joy
- Infrastructure

- Federal
- State of Maryland
- Prince George's County
- Capitol Heights
- Seat Pleasant
- Fairmont Heights
- Unincorporated areas
- LISC
- Other organizations

Positive

Tools

- Infrastructure investment
- Tax incremental financing
- Special assessment districts
- Support/funding/reimbursement agreements
- Tax exemptions and abatements

"For every dollar in tax revenues from multifamily residential projects, 38 cents are needed to provide services to directly support the use and 62 cents are available for general budget needs."

2022 Commonwealth Plan of the Year

Effort a recognition that residents are increasingly at risk of being priced out of housing, that's exacerbated by the neighborhood's proximity to the new Amazon HQ2 and Virginia Tech Innovation campuses.

"It is encouraging and inspiring to see how this Plan prioritized the Hispanic/Latino population by engaging with the community in Spanish first during the plan's process." Nick Rogers, American Planning Association Virginia's Vice President of External Affairs

Short Term

Action Item: Asset Activation

Land/Asset Inventory Activation Exercise and Coordinated Resource Allocation

- Evaluate local assets/vacant land for development, activation and addressing community needs through the lens of:
 - Civic, cultural, community spaces, small scale residential, small scale commercial development, larger scale development
- Leverage potential support from
 - Planning Assistance to Municipalities and Communities (PAMC) through M-NCPCC
 - Partner with University of Maryland Real Estate Development Program
 - LISC & others
- Identify individual funding and resource needs for both temporary/short term and long-term activation/development
- Identify joint deployment of resources and allocation of resources.
- Inform land use decisions and identify funding and resource gap.

Medium Term

Long Term

Action Item: Small Parcel Land Activation

- **Convene a working group** of local municipal officials, community groups, nonprofits, churches, and businesses.
- Using an inventory of existing vacant land, **identify parcels that can be used as civic, cultural, and community spaces**. Each area will have projects of a different character that reflect the unique history and culture.
- **Utilize existing funding to bring projects to life.** (Ex- PGC Department of Housing and Community Development, Redevelopment Authority, Chesapeake Bay Trust, Anacostia Trails Heritage Area*, Maryland Heritage Areas Authority*, Maryland State Arts Council, and Maryland DHCD Community Legacy funds.)

Image Credit: M-NCPPC

Vacant Lot Reuse

Duncan Street Miracle Garden, Baltimore, MD

Image Credit: [Baltimore Green Space](#)

Action Item: Deployment

Deployment to address Community Needs

- Identify solutions to funding and resource gap to bring projects to life.
- Dedicate/leverage increased tax revenues from new development or other funding sources to finance upfront costs or fund ongoing community needs/resource gap.
- Allocate funding or resources to:
 - Infrastructure
 - Attainable Housing
 - Other Community Needs

Agency Coordination and Public Process

AGENCY COORDINATION AND PUBLIC PROCESS

Leveraging Assets for Inclusive and Equitable Growth

Agency Coordination

What We Heard

- A lack of coordination and consistency exists between local municipalities and County agencies
- Local officials and residents feel like they have not been heard or part of the planning and development process
- Although several planning studies have been prepared, they have not been implemented within the western end of Blue Line Corridor

Image Credit: cliparty.com

Agency Coordination

Recommendations

- Engage agencies on a regular basis to share information and best practices
- Establish partnerships for funding sources
- Stay up-to-date on potential Federal funding resources and requirements
- Maintain flexibility to respond to changing market conditions and phasing
- Leverage land holdings in the land use and decision-making process

Image Credit: cliparty.com

Public Process

What We Heard

- The process is complex and challenging to navigate
- Its unpredictable
- It's difficult for developers to take risks and make significant investments under current conditions
- Local municipalities and residents have deep roots and feel like they have not been heard
- Municipalities and communities want to be part of local land use decisions
- It takes too long to see the return on investment
- Support existing residents while attracting new residents
- Desire to attract new businesses (a grocery store), job growth, and workforce development

Image Credit: cliparty.com

Public Process

Recommendations

- Find a Champion!
- Establish a Community-Based Organization (CBO) with regularly scheduled meetings with realistic goals and accountability
- Educate Public Officials and Community on Development Process
- Define realistic expectations for development and return on investment
- Get input from both municipalities and HOA's within unincorporated areas
- Empower local officials and citizen groups to be involved in land use decisions to ensure inclusive and equitable growth
- Establish a Business Improvement District, Development Authority, or similar agency in the future

Image Credit: cliparty.com

Case Study

Greater Riverdale Thrives

- GRT is a group of community members working together to change their communities.
- The coalition has organized workgroups and community member co-chairs, to address issues that include food access, economic empowerment, environmental health and safety, health and wellness, Latino and immigrant outreach, and schools.
- The Greater Riverdale Thrives meets on a monthly basis.
- Received from Kaiser Permanente to seed organization

Image Credit: greateriverdalethrives.org/

Action Items: Find a Champion

- Create a Community-Based Organization (CBO)
- Engage local municipalities and unincorporated areas
- Educate municipalities and the public on the development process and opportunities
 - Enroll in Planning Academy, find funding for Neighborworks America training
 - Seek council support and CBO support for community engagement and charrettes
 - UrbanPlan with ULI
- Research funding sources for near-term opportunities

Short Term

Medium Term

Long Term

Key Recommendations

Key Recommendations

- 1: Create a repository of community assets across the corridor to reflect their unique community identities in the built environment.
- 2: Implement short-term safety improvements and invest in long-term projects that create more desirable development sites.
- 3: Conduct Land/Asset inventory activation exercise and coordinate resource allocation.
- 4: Establish a Community-Based Organization (CBO) to be a voice and advocate on behalf of the municipalities and community to promote inclusive and equitable growth.**
