

CELEBRATING EXCELLENCE IN THE BRIDGES NETWORK

Bridges is a LISC model that helps adults who are unemployed and underemployed train for, land, and advance in jobs in local growth industries by helping them overcome the roadblocks to success. The Bridges Network is currently made up of seven neighborhood-based agencies with nearly 60 Bridges team members serving hundreds of Indianapolis families every year.

LISC Indianapolis is launching the Building Bridges Award Program in 2023 to celebrate the outstanding contributions, initiative and leadership in the Bridges to Career Opportunities (Bridges) Network.

The Building Bridges Awards will formally recognize four award recipients nominated by their peers across four distinct categories:

- Team Impact
- Coaching Champion
- Rockstar Rookie
- Spotlight Leader

Nominations will be reviewed by a judging committee made up of LISC Indianapolis Local Advisory Board members and LISC National staff.

The Building Bridges Awards is a local staple championing how exemplary coaching and education can make a real difference across Indianapolis' communities.
