Spark Opportunity Grant Program
Introductory Webinar
October 1, 2019
Introductions

Sara Sorbello
Vice President, Charter School Financing, Local Initiatives Support Corporation (LISC)

Together with residents and partners, LISC forges resilient and inclusive communities of opportunity across America – great places to live, work, visit, do business and raise families. We invest in affordable housing, better schools, safer streets, growing businesses and programs that connect people with financial opportunity.

Since 1997, LISC has provided more than $365 million in loans, tax credit allocations, guarantees and grants to finance charter school facilities in low-income neighborhoods in 21 states across the country. Schools use this money to acquire, build, or renovate their facilities. LISC also provides technical assistance and promotes transparency of financing options to help school leaders secure affordable debt through resources like our SchoolBuild research portal.

Kahlmus Eatman
Vice President of Operations, Pacific Charter School Development (PCSD)

Pacific Charter School Development was founded with the mission to create affordable, high-quality facilities for charter schools with high academic results. PCSD has over 15 years of charter school facilities experience across all phases of the development lifecycle – working with charter schools to acquire land, build school facilities, and match the project with affordable financing from a lender – all in the effort to bring more high-quality charter school seats to the markets that need them. PCSD has developed $828MM in total projects, leveraging philanthropy, private financing, and state funding to create 83 campuses serving over 37,000 students across multiple districts.

The Spark Opportunity Grant Program is made possible with generous financial support of the Walton Family Foundation
Who is in the Audience? Where are you from?

Send us a message in the chatbox letting us know who you are and where you are joining us from.

Who?
• School leaders
• School operations and finance staff
• School board members
• Real estate professionals
• Finance professionals

Where?
• Massachusetts
• Rhode Island
• California
• Illinois
• Texas
Agenda

• Purpose
• What are Opportunity Zones?
• Program Details
  • Overview
  • How to Apply
  • Eligible Uses of Funds
  • Grantee Expectations
• Additional Resources
• Next Steps
The Spark Opportunity Grant Program was created to provide predevelopment grant capital to nonprofit public charter schools across the country to advance the real estate and financial planning for new facilities.
Goals of the Spark Opportunity Grant Program

• Help schools plan and develop quality, affordable facilities
• Increase awareness of Opportunity Zones (OZs)
What are Opportunity Zones?
An Overview of Opportunity Zones

Established in the 2017 Tax and Jobs Act as an incentive to spur long-term, private-sector investments in low-income, urban and rural communities.

- Governors designated up to 25% of Low-Income Community Census tracts to be certified as Opportunity Zones in their respective states.
- Over 8,700 census tracts were designated.
- Provides tax incentives for investors placing capital gains into eligible projects

Opportunity Zones and Charter Schools: The Basics

- Charter schools already exist in and around Opportunity Zones
- Pursuing a project in an Opportunity Zone may open the door to accessing equity investment as one potential financing scenario
- Accessing OZ investment can be complicated due to strict guidelines for eligibility and timelines for investment
- Spark was created to help charter schools explore OZs for their specific circumstance
Spark Opportunity
Grant Program
Details
Overview

$2 million
Total Grant Pool

$15,000 - $50,000
Individual Grant Amounts

40 charter schools
Estimated Number of Grantees
Process

Applicant Eligibility
Nonprofit public charter schools that have been in operation for at least one school year and are planning a new facility.

- Relocating or adding a new campus
- National scope

How to Apply
The application is available online at http://bit.ly/SparkOpp

Schools will be asked about their school mission and model, student population served, project rationale and status, and a budget for grant activities.

Applications should be submitted via email to sparkopportunity@lisc.org

Review Process
Applications will be evaluated based on:

- facility planning need
- school mission and student demographics
- academic quality
- community engagement
- project location (OZs and other distressed communities)

Grant Timeline
Application available: 10/1
Application Assistance Office Hours: Starting 10/14
Application deadline: 11/1 for 1st round
Grantees Announced: December 2019
Application Components

Required Application Materials

- Application form
  - Opportunity Zone analysis
- Grant request budget
- Current school operating budget
- Most recent audit
- Academic performance data

Enter your school/project address (or target zip code, or city/town) in the Location field to view OZs in your community.

Designated areas will appear purple. Zoom function on right side of map.

Go to: https://plcy.mp/fNx1Rcq
Eligible Uses of Grant Funds

Early Planning
- Financial capacity and Affordability Analysis
- Market Study
- Site Search

Pre-Construction / Pre-Development
- Feasibility Study
- Architectural Planning and Design
- Site Due Diligence

Financing and Construction
- Zoning and Permit Applications
- Financial Modeling of Financing/Investment Scenarios
Grantee Expectations

Each Spark Opportunity grantee will be required to produce a ‘facility plan’ for their project with potential development and financing scenarios.

Grantees will also be required to report back on specific outcomes from the grant activities and progress of the project:

- How did the grant impact your planning and development process?
- Did you engage with developers, investors or other Opportunity Zone stakeholders?
