What is the CDFI Fund?

- The CDFI Fund, established in 1994, is part of the U.S. Department of the Treasury.
- The CDFI Fund certifies institutions as CDFIs (there are over 1,300 certified CDFIs serving urban, rural and tribal communities throughout the country) and administers several different programs to support their capacity and growth:
  - **The CDFI Financial Assistance (FA) Program** provides “institutional investments” (loans, grants and equity investments) that enable CDFIs to grow their net assets, increase operating reserves and/or support other activities that enable CDFIs to significantly increase their lending capacity.
  - **The CDFI Technical Assistance (TA) Program** provides smaller grants to CDFIs and emerging CDFIs to support technical assistance or capacity building needs.
- **The Capital Magnet Fund (CMF)** provides grants to CDFIs and nonprofit housing developers for the purpose of investing in affordable housing and related community development activities. CMF award dollars must be leveraged by at least a 10:1 basis.
- **The CDFI Bond Guarantee Program** enables CDFIs to receive bonds of up to 30 years that are 100 percent guaranteed by the Federal government, providing a source of cheap, long-term debt for CDFIs that is not available in the marketplace.
- The CDFI Fund also administers the **New Markets Tax Credit Program**, through which investors can receive tax credits for investing in Treasury certified Community Development Entities (CDEs); which in turn must invest the proceeds into businesses and real estate projects located in low income communities.

What are the outcomes?

- To date, the CDFI Fund has awarded over $3.6 billion to CDFIs and allocated over $66 billion in New Market Tax Credit investment authority to CDEs.
- In FY 2020, CDFI Program awardees originated over $25.4 billion in loans and investments, financed $6.5 billion for home improvement loans, $3.9 billion for business and microenterprise loans, $2.2 billion for residential real estate transactions, and $10 billion for consumer loans.
Support funding of the CDFI Fund’s budget of at least $1 billion. This is the only federal program that directly supports the capacity and growth of CDFIs.

Support extension of the CDFI Bond Guarantee Program at $500 million annually through FY 2023. This program provides CDFIs with long term capital (up to 30 years) that isn’t otherwise available in the marketplace.

Support the Capital Magnet Fund. The funding stream for this program is provided through a very small, annual assessment on new business revenues generated by Fannie Mae and Freddie Mac. This funding source must be protected, and any subsequent reforms of the housing finance system should ensure a continued source of funding for this program.

LISC has been among the most successful NMTC awardees. LISC has placed $1.10 billion in NMTC equity in 155 different projects in low-income communities, supporting over $3.3 billion in total development costs.

- These investments supported more than 22,000 construction and permanent jobs; 12.5 million square feet of commercial and community space; healthcare facilities serving almost 300,000 patients; and educational facilities serving 15,000 students.

LISC also received a $50 million award in 2013 under the inaugural round of the CDFI Bond Guarantee Program; the long-term debt is supporting affordable housing development, charter school financing, and healthcare facilities financing. Since 2013, LISC’s BGP award has supported 20 projects, totaling $70 million in LISC lending investments.

LISC has been a certified CDFI since 1995, and received its first CDFI Program award in 1996.

To date, LISC has received over $56.3 million in CDFI Program awards, which have supported activities ranging from foreclosure mitigation to charter school facilities funding to healthy food financing.

LISC has received four CMF awards totaling $24.8 million focused on supporting affordable rental housing development. Since 2010, LISC’s CMF awards have: supported 34 projects; created/preserved 2,440 units of affordable housing; created 588 construction jobs; produced 217,467 square feet of commercial retail and educational space; leveraged $757.4 million of total project costs for a total leverage ratio of 32:1; of which 31 percent was financed through private dollars.

Through 2021, NMTCs financed 9,500 businesses and real estate projects, including small businesses, manufacturing facilities, charter schools, health care centers, child care facilities, shopping centers and grocery stores in some of the nation’s most distressed rural and urban communities. It has helped to develop or rehabilitate 368 million square feet of real estate, and creating or retaining more than 1 million jobs in these communities.
